

Blockout banners are specifically designed for double-sided printing, making them perfect for environments where both sides of the banner need to be visible. These banners are made from a special light-blocking material, ensuring no light passes through, allowing vibrant prints on both sides.

## Typical confections:

Cut to size

Loop

Welding and grommets

**Any combination of these, or custom finishing is also available upon request.**

## Usage Options:

- 1. Indoor/Outdoor Advertising:** Ideal for promotional signage where both sides are visible.
- 2. Trade Shows & Exhibitions:** Perfect for booth dividers or hanging signs.
- 3. Retail Store Promotions:** Display promotions from both sides.
- 4. Event Banners:** Effective for walkways or overhead displays.

## Useful tips for preparing the design:

- Maximum print width: 310 cm
- Please submit the files to be printed in high resolution, in CMYK color mode.
- Please note that the grommets may extend 2-3 cm from the side into the graphic, so we do not recommend placing text or important information in that area.
